Select Browser from the expanded menu. Scroll down until you find the Downloads section. Click the Change button next to Location. Navigate to the folder where you want to save future downloads, and click the button. Safari Follow these steps to change where Safari saves your downloads. Open Safari. In the menu bar, open the menu, and choose Preferences. Under the General tab, open the File download location drop-down menu. Select Other from the drop-down menu. Navigate to the folder where you To save future downloads and click on the botan. Your Windows 10 computer saves your downloaded files on a particular folder on your rude disk. If you want, you can change this standard download location on your Windows 10 PC to any other folder you like. There are many reasons that you may want to change the pattern download folder on your computer. Maybe you want to keep your files downloaded at a particular party? Or maybe you are starting a new download task and do you want all these files saved in a particular folder? There are several ways to change the standard download location on windows 10. Change default download location using the file explorer a way to change the standard download location is using the File Utility Explorer. Use Cortana Search to look for this PC and open it. Navigate to the unit where you want to make a pattern download folder. Once you are in your chosen unit, click on the right of the mouse in any blank space and choose new followed by folder. Enter a name for your new download folder. This is where your future downloaded files will be dispoingable. Go to the root folder on this PC so you can see the Downloads folder. Click with the right of mouse in the Downloads folder and select properties. On the following screen, click the tab that says location. In the location tab, you will see the current path to your download folder. To change this folder, click on the MOVER. Your computer will allow you to select the new standard download folder. Navigate to the unit where you created the new folder and select it. Click Apply Following OK to use your newly selected folder as the standard download location. If you want to go back to the old downloads folder, click on the Restore default button and it will redefine your configurations. Change pattern download Using Windows Register Registry Editor allows you to adjust many configurations in your mother. This includes changing the standard download location on your PC with Windows 10. You. You. You need to edit a value in the record and your chosen folder will become the new standard download location. Create a new folder you want to use as a pattern download folder. This may be anywhere on your computer or even in your connected units. Open your newly created File Explorer folder. You need to copy the way to your new download folder. Click on the address bar, highlight the full path and press Ctrl + C on the keyboard to copy the path. Press the Windows + R keys at the same time to open the execution box. Enter the following in the execution box and press ENTER. This will open the registration editor. Various registration values you can adjust. Find the input that has %userprofile %\ downloads in your data column and click twice. Put your cursor in the value dice box, remove the existing box from the box and press Ctrl + V to paste the path to your new download folder location. Then click OK to save changes. Change the standard download location for vain file types, there is a feature on Windows 10 that allows you to choose different units to save different types of files. With this feature, you can change where your computer saves your applications, documents, moms and so on. You can not choose the specific folder, however. You are only choose the unit where your new containment should be saved. Open the start menu, search configurations and open it. Select the option that says the system on the following screen. Click storage of disposable options in the left sidebar. You see your storage information on the right side panel. Scroll down and click on the option it says to change where the new containment is saved. On the following screen, you see which one of the one is except where by pattern. To change the Downloads Drive for a specific content type, click the drop-down menu next to the file type and choose your preferred drive. You can change the default download location for the following items with this feature. AppsDocumentsMuscphtosVideos Moviestv ShowsOffline Maps Change the default download location in Microsoft Edge You can change the default download location in Microsoft Edge on your computer so that your future downloads are saved in the selected folder. Changing this setting applies only to this browser. Your other browsers will continue saving your files where they did before. Open Start menu, search Microsoft Edge and start it. Click the three points in the top right corner of your browser and select the option that says settings. You will see several options in the left sidebar on the screen. Find the option that says downloads and click on it. This option will allow you to modify your download settings. In the right side panel, you will see an item that says the location. Currently, that's where Edge saves its files. To change the default download folder, click the Change button. File Explorer will open, allowing you to select your new folder as the default download folder. Click the folder and choose Select folder. If you use a download manager to download files, you will need to go to your manager's download application settings and change the default download location. Many apps do not use the default Windows Downloads folder as your download location. Have you ever had to change the default download location on your Windows 10 PC? What method did you use to do that? We like to know in the comments below. http://www.online-tech-tips. with by default, all you download from a web browser will go to the download folder in yourThis is true, regardless of the operating system you are executing. Most people use the pattern place for downloads, but there are no instances where it can be it to change this folder. For example, if you are downloading large files large and you have enough storage space on the local disc, you can download the files to an external rude disk or a network unit. Changing the standard download folder location is different for each browser, and each browser has different options. In Chrome, click on the configurations (TRANSE VERTICAL POINTS) at the top right of the window. Then click on the menu list. ROLLY AT THE LOWER AND CLICK ON THE ADVANCED LINK. Once again, scroll down to see the downloads in direction. Go ahead and click the change and choose a new location. If you need different downloads saved at different locations, make sure to switch the Ask where to save each file before downloading the option. For Microsoft Borde, you click on the button that has horizontal points and then click on configurations. A sliding menu will appear on the right side. Scroll down to the look at the Veri Botan. DESIGN TO Downloads. Click on the change and choose a new location for downloads. You can also alternate if you want or do not ask where to save each download. If you are still using IE, you need to click on the gear Æone and then click see downloads. A popup window will appear that lists any current or previous download using IE. Click on the options link at the bottom left. Click on the search button to change the vacation folder location. Change this configuration in the safari is very straightforward. Click Safari on the menu bar at the top and click Preferred.
